Pearl Harbor, T. H.

1. The first part of the paper is devoted to a general discussion of the problem.

2. In the second part, we shall consider the special case of a uniform distribution.

3. The third part is devoted to the study of the asymptotic behavior of the distribution.

4. Finally, in the fourth part, we shall give some numerical results.

5. The paper is concluded by a short summary of the results.

6. The author wishes to express his thanks to the referee for his valuable remarks.

7. The author also wishes to thank the members of the Institute for their hospitality.

8. The author is indebted to the Ministry of Education for the grant which made this work possible.

9. The author is also indebted to the Ministry of Science for the grant which made this work possible.

10. The author is also indebted to the Ministry of Culture for the grant which made this work possible.

11. The author is also indebted to the Ministry of Health for the grant which made this work possible.

12. The author is also indebted to the Ministry of Agriculture for the grant which made this work possible.

THE HISTORY OF THE

REIGN OF

1688	The year 1688 was a year of great importance in the history of England. It was the year in which James II. was deposed, and William III. and Mary II. were proclaimed King and Queen.	The year 1688 was a year of great importance in the history of England. It was the year in which James II. was deposed, and William III. and Mary II. were proclaimed King and Queen.
1689	The year 1689 was a year of great importance in the history of England. It was the year in which the Bill of Rights was passed, and the rights of the people were secured.	The year 1689 was a year of great importance in the history of England. It was the year in which the Bill of Rights was passed, and the rights of the people were secured.
1690	The year 1690 was a year of great importance in the history of England. It was the year in which the Battle of the Boyne was fought, and William III. was victorious over James II.	The year 1690 was a year of great importance in the history of England. It was the year in which the Battle of the Boyne was fought, and William III. was victorious over James II.
1691	The year 1691 was a year of great importance in the history of England. It was the year in which the Treaty of Limerick was signed, and James II. fled to France.	The year 1691 was a year of great importance in the history of England. It was the year in which the Treaty of Limerick was signed, and James II. fled to France.
1692	The year 1692 was a year of great importance in the history of England. It was the year in which the Act of Toleration was passed, and the rights of the Dissenters were secured.	The year 1692 was a year of great importance in the history of England. It was the year in which the Act of Toleration was passed, and the rights of the Dissenters were secured.
1693	The year 1693 was a year of great importance in the history of England. It was the year in which the Act of Settlement was passed, and William III. and Mary II. were proclaimed King and Queen.	The year 1693 was a year of great importance in the history of England. It was the year in which the Act of Settlement was passed, and William III. and Mary II. were proclaimed King and Queen.
1694	The year 1694 was a year of great importance in the history of England. It was the year in which the Act of Union was passed, and the Kingdom of Great Britain was formed.	The year 1694 was a year of great importance in the history of England. It was the year in which the Act of Union was passed, and the Kingdom of Great Britain was formed.
1695	The year 1695 was a year of great importance in the history of England. It was the year in which the Act of Tonnage and Customs was passed, and the rights of the merchants were secured.	The year 1695 was a year of great importance in the history of England. It was the year in which the Act of Tonnage and Customs was passed, and the rights of the merchants were secured.
1696	The year 1696 was a year of great importance in the history of England. It was the year in which the Act of Trade and Commerce was passed, and the rights of the merchants were secured.	The year 1696 was a year of great importance in the history of England. It was the year in which the Act of Trade and Commerce was passed, and the rights of the merchants were secured.
1697	The year 1697 was a year of great importance in the history of England. It was the year in which the Act of Naturalization was passed, and the rights of the aliens were secured.	The year 1697 was a year of great importance in the history of England. It was the year in which the Act of Naturalization was passed, and the rights of the aliens were secured.
1698	The year 1698 was a year of great importance in the history of England. It was the year in which the Act of the Privy Council was passed, and the rights of the Privy Council were secured.	The year 1698 was a year of great importance in the history of England. It was the year in which the Act of the Privy Council was passed, and the rights of the Privy Council were secured.
1699	The year 1699 was a year of great importance in the history of England. It was the year in which the Act of the House of Commons was passed, and the rights of the House of Commons were secured.	The year 1699 was a year of great importance in the history of England. It was the year in which the Act of the House of Commons was passed, and the rights of the House of Commons were secured.
1700	The year 1700 was a year of great importance in the history of England. It was the year in which the Act of the King was passed, and the rights of the King were secured.	The year 1700 was a year of great importance in the history of England. It was the year in which the Act of the King was passed, and the rights of the King were secured.
1701	The year 1701 was a year of great importance in the history of England. It was the year in which the Act of the Parliament was passed, and the rights of the Parliament were secured.	The year 1701 was a year of great importance in the history of England. It was the year in which the Act of the Parliament was passed, and the rights of the Parliament were secured.
1702	The year 1702 was a year of great importance in the history of England. It was the year in which the Act of the People was passed, and the rights of the People were secured.	The year 1702 was a year of great importance in the history of England. It was the year in which the Act of the People was passed, and the rights of the People were secured.
1703	The year 1703 was a year of great importance in the history of England. It was the year in which the Act of the Nation was passed, and the rights of the Nation were secured.	The year 1703 was a year of great importance in the history of England. It was the year in which the Act of the Nation was passed, and the rights of the Nation were secured.
1704	The year 1704 was a year of great importance in the history of England. It was the year in which the Act of the World was passed, and the rights of the World were secured.	The year 1704 was a year of great importance in the history of England. It was the year in which the Act of the World was passed, and the rights of the World were secured.
1705	The year 1705 was a year of great importance in the history of England. It was the year in which the Act of the Universe was passed, and the rights of the Universe were secured.	The year 1705 was a year of great importance in the history of England. It was the year in which the Act of the Universe was passed, and the rights of the Universe were secured.
1706	The year 1706 was a year of great importance in the history of England. It was the year in which the Act of the Heavens was passed, and the rights of the Heavens were secured.	The year 1706 was a year of great importance in the history of England. It was the year in which the Act of the Heavens was passed, and the rights of the Heavens were secured.
1707	The year 1707 was a year of great importance in the history of England. It was the year in which the Act of the Earth was passed, and the rights of the Earth were secured.	The year 1707 was a year of great importance in the history of England. It was the year in which the Act of the Earth was passed, and the rights of the Earth were secured.
1708	The year 1708 was a year of great importance in the history of England. It was the year in which the Act of the Sun was passed, and the rights of the Sun were secured.	The year 1708 was a year of great importance in the history of England. It was the year in which the Act of the Sun was passed, and the rights of the Sun were secured.
1709	The year 1709 was a year of great importance in the history of England. It was the year in which the Act of the Moon was passed, and the rights of the Moon were secured.	The year 1709 was a year of great importance in the history of England. It was the year in which the Act of the Moon was passed, and the rights of the Moon were secured.

THE UNIVERSITY OF CHICAGO

DEPARTMENT OF CHEMISTRY

MEMORANDUM FOR THE RECORD
DATE: 1954
TO: THE DEPARTMENT OF CHEMISTRY
FROM: [Name]

1. The purpose of this memorandum is to report on the results of the experiments conducted during the past week. The experiments were designed to determine the effect of temperature on the rate of reaction between [Substance A] and [Substance B].

2. The results of the experiments are as follows: [Detailed description of experimental results, including data points and trends.]

3. The data indicate that the rate of reaction increases with increasing temperature. This is consistent with the Arrhenius equation, which predicts that the rate constant of a reaction increases exponentially with temperature.

4. The activation energy of the reaction was calculated from the Arrhenius plot and found to be [Value] kcal/mole. This value is in good agreement with the values reported in the literature for similar reactions.

5. The experiments were repeated at several different temperatures to ensure the accuracy of the results. The results were consistent, and the activation energy was found to be [Value] kcal/mole.

6. The results of these experiments provide a clear demonstration of the effect of temperature on the rate of reaction. The data are consistent with the Arrhenius equation, and the activation energy is in good agreement with the literature values.

7. The experiments were conducted under the following conditions: [List of experimental conditions, including concentrations, pressures, and temperatures.]
